

Applicant : Peter J. Whitehead
Serial No. : 10/790,309
Page : 13

REMARKS

The Examiner required election of a single species and identified three distinct species, namely the mirror assembly depicted in FIG. 3; the mirror assembly depicted in FIG. 4; and the mirror assembly depicted in FIG. 5. The Examiner further requires election between a prismatic reflective element and a variable reflective element. As noted above, Applicant provisionally elects the embodiment depicted in FIG. 3 and, further, the variable reflectance element. The claims readable thereon include Claims 1, 2, 8-14, 16, 17, 20, and 21 and new Claims 48-68.

An early and favorable action on the merits is respectfully solicited.

Respectfully submitted,

PETER J. WHITEHEAD
